## *Superintendent's Message*

### TO THE SENIORS:

As our nation treasures the events of its youth, so we treasure these events of our youth that the memories of the future may be made more vivid by this record of the past. Within this book are many memories from life reflecting happy associations and worthwhile activities of your high school days.

You will allow me, I trust, to express the hope that each student has a little better hold on the varieties of life because of this year's work; that you have found in your studies the story of the aspirations and achievements of man during his long history; that, withal, his own philosophy of life has been clarified, and that he is looking out into the future with hope and courage. Let us all have a desire and inspiration for the higher ideals of life.

Sincerely,

*Elmer H. Gibson*
